

## Adding Sound Effects and Narration in Movie Maker

### Adding sound effects / your own music

1. Under 'Movie Tasks' click 'Import Audio or Music'. Browse to the music or audio file on your computer.

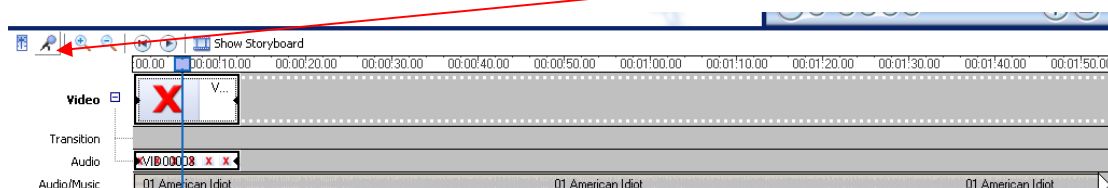

2. Click 'Import'.
3. In Timeline View – drag the audio clip onto the music/audio track on the timeline.

4. Just like a video clip you can cut or trim the audio clip. To shorten it, hover over the selected clip end and drag the double headed arrow back.

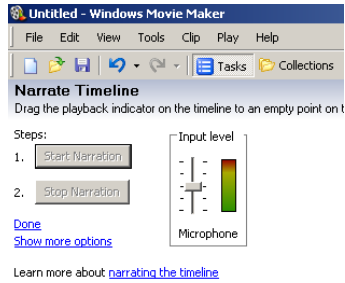

### Adding Narration

1. Play the clip to the point where you want to add the narration and pause. Click on the microphone button at the top of the timeline.

2. Make sure you have a microphone connected to the computer and click on 'Start narration'

3. Click on 'Stop narration' to finish recording.
4. Name you narration and save.
5. Click on 'Done' and the narration will appear in place on the audio/music track.
